

MIRACLE POMEGRANATE

OF THURSDAY 11 JUNE

2015

THE EXCLUSIVE ISLAMIC MIRACLE PHOTOGRAPHS OF

DR UMAR AZAM

MANCHESTER UK

JUNE 2015

INTRODUCTION

This pomegranate was a rarer species, one with dark red, purplish – almost black pips- and scarlet juice, with a sharp tangy flavour. The Name of Allah SWT on it was camouflaged (the first of the Miracle fruits that I have bought to not have a holy name clearly written on it). This fruit was amongst others bought from *Ava Fruit & Veg, Whalley Range, Manchester UK* on Friday 5th June 2015. The

Name of Allah was spotted by myself on Thursday 11 June 2015. The photographs of the pips and juice show how dark red the inside of the pomegranate was. As with all the other Miracle fruits that I have bought, *Duas* (Religious Prayers) were read over it before consumption to derive the Blessing of Allah Most High therefrom. It was consumed in the early hours of Friday 12 June 2015.

Yesterday, Madiah, I dreamt of Surah Ya Sin and one other surah of the Holy Quran (can't recall which one); one Surah led to the other. I feel

really fortunate because mention of Surah Ya Sin in a dream means that the dreamer will always be blessed by Allah. Alhamdulillah.

And a few hours ago I deciphered the camouflaged Name of Allah SWT on a pomegranate, a different species with scarlet, almost black pips, and scarlet juice. See if you too can decode the Name of Allah SWT on the pomegranate. It's challenging!

to me

Walekumsalaam Dr Umar Azam,

MashAllah, it's really a blessing! You are very close to Allah SWT. Your good deeds

and deep faith are really being appreciated by Allah SWT.

Yes, I can read the name of Allah SWT on the pomegranate, subhanAllah! It's amazing.

Jazakallah for your remarks, Madiyah. Now I'm in the middle of creating a research paper on the Miracle Pomegranate. I tried to complete all the paper last night in about 45 minutes but ran into technical problems eg the colour scan I made a Pdf of needed rotating the correct side up but there was no option to rotate it in the accompanying links! So I think I'll need a lot more time on it. And the text needs changing too because the pips photographed before were from ANOTHER pomegranate from the same back. But when I prepared the Miracle Pomegranate for eating last night, I photographed the correct pips! Dr Umar

From the same BATCH, not back. Sometimes I choose the correct word from the highlighted options on my Sony Experia M2 but STILL an incorrect word is pasted in the text! It's happened twice in the last 10 minutes for 2 different emails.

to me

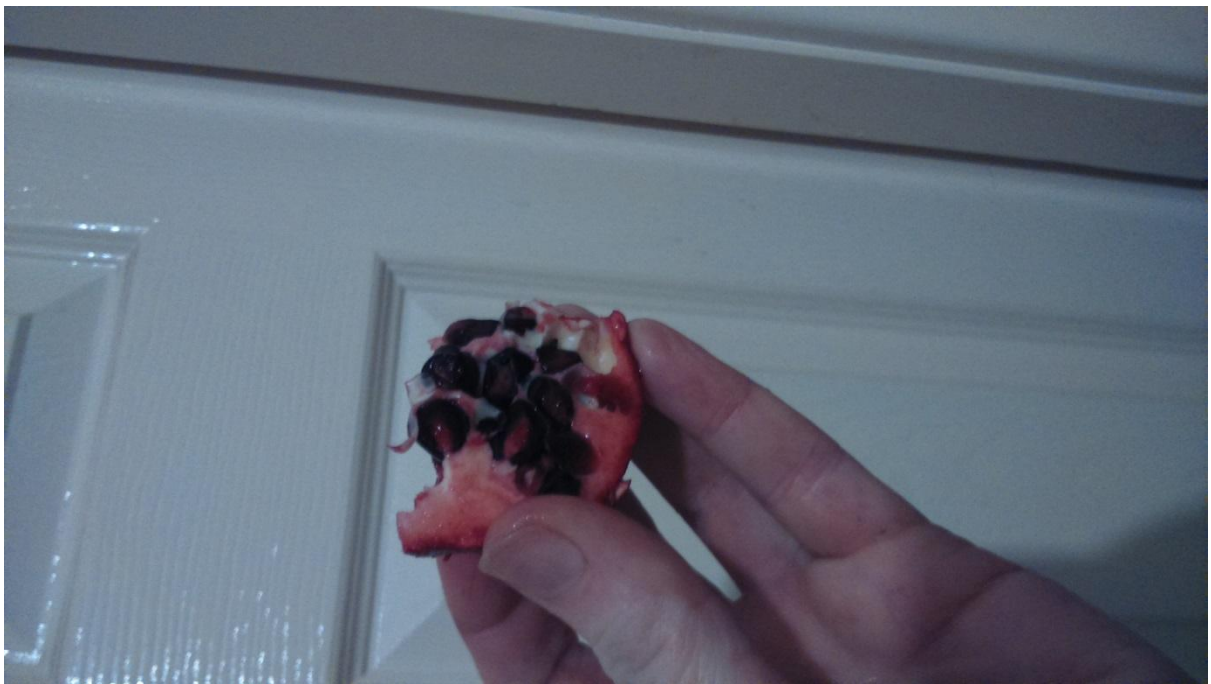

Yes, that keeps happening with the new mobiles.

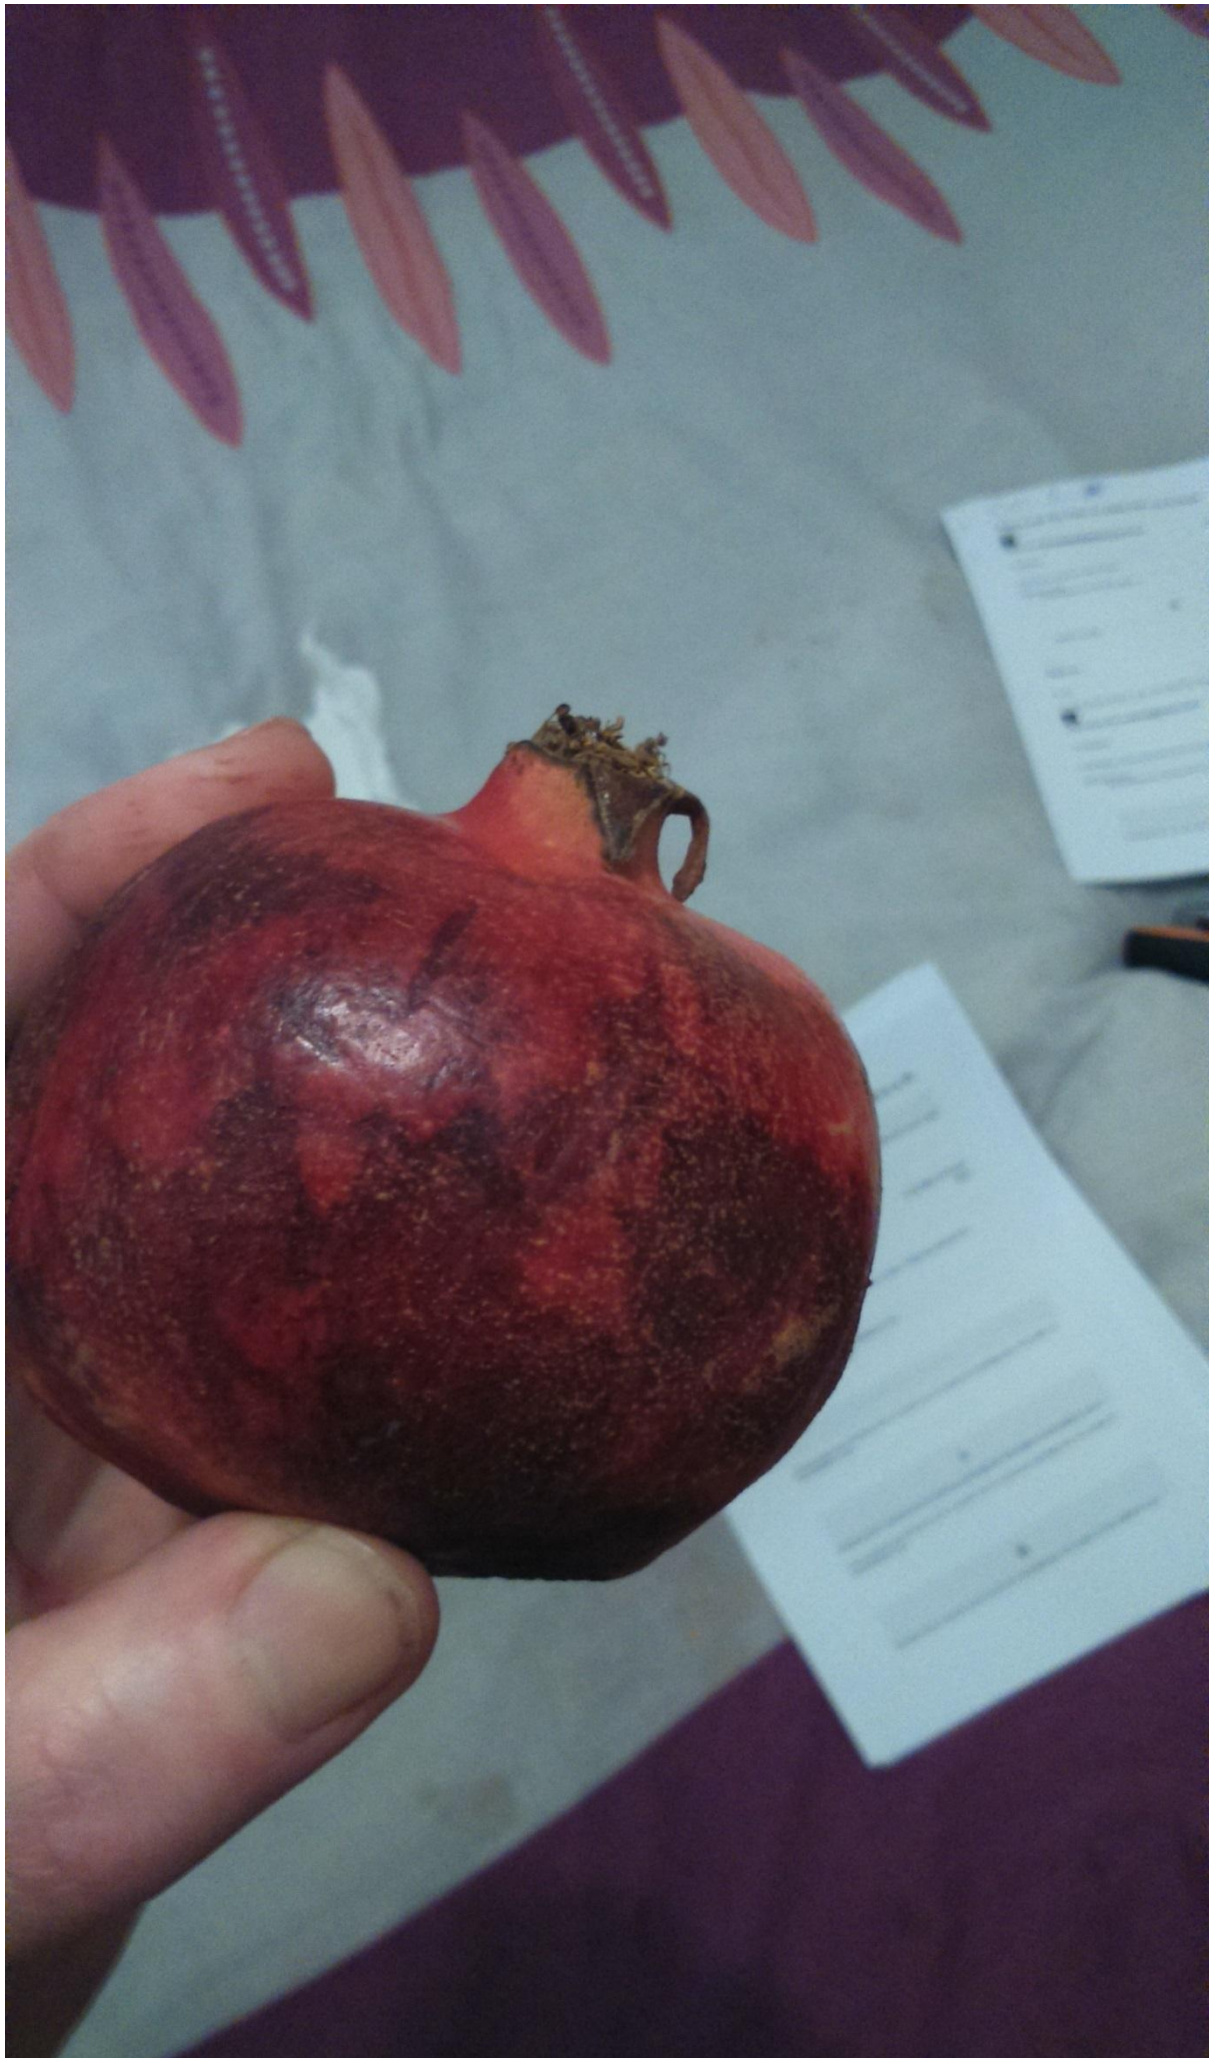

I use a very simple one.
