I was running late to go to the Internet
Cafe to do my Islamic work & I
thought I would quickly leave a
tangerine for refreshment before I
went. When I tried to take a
fruit out of the net, all the tangerines
fell out of the net & into the
fish tank sink! One shot out and
to say "habibce me!!" I looked
at it and recognised the Name of
Allah (not that in Arabic)
Then I went to the Internet Cafe ^{Sundon}
& photographed it with a view to
making a new Miracle file with
just that tangerine as the subject.
Later, at home, I photographed
the label from 3 in, various
angles of the tangerine & the
net itself.

Strange Incident c. 10:15 pm on

Monday 13/10/14

I was running late to go to the Internet Café to do my Islamic work and I thought I would quickly have a tangerine for refreshment before going out. As I tried to take a fruit out of the net, all the [remaining] tangerines fell out of their net and

into the kitchen sink [from their place on the kitchen unit]. One stood out as if to say: 'Notice me!' I looked at it and recognised the Name of Allah Most High in Arabic. Then I went to the Internet Café and scanned the fruit with a view to making a new Miracle File with just this tangerine as the subject. Later, at home, I photographed the label from Spain, various angles of the tangerine and the net itself.

[The tangerines were bought from Manchester Superstore, Stockport Road, M13 UK on Saturday 11 October 2014.]
