- (24) Paste the old Aspects of Islam into new site?
- (25) Quanic Verses promising Miracles.
- (26) Could be educational & of benefit to children & youths (young generation of Muslims) because of the visual aspect - can see photographs - easy to relate to a word!  
 ↓ So, adults as well as seeing site yourself, show it to your children!
- (27) When terms start, notify schools, colleges, ISOCs etc of the site
- (28) Photos helpful for 2th - pendabrana of Allah sending Jibril on Prophet
- (29) Photos show that Islam is the correct religion & atheists are misguided
- (30) Russia - Muslim Republics
- (31) Write GAZETTES etc. to take files. Max search Internet Directories that have made my other files available.

\* NB let these actions take months if necessary, but do implement them

- (32) Copy of online or Islamic miracle files & photos of website itself. photos are fruit perishes - but photos of visual record in time & space of miracle happening. However, Allah's name on precious stones or pebbles or marble = permanent. In sky or clouds - temporal.

\*\* These posts will give site substance & quality - make it academic - give it depth

- (34) Photos - simple - for people who want simplicity but depth for people who need mental stimulation as well as physical.
- (35) Method - how did I find so many Miracles - by examining everything. If you don't look, you won't find! Better to be disappointed than not search. Sooner or later you'll find something, then photograph what you find!

(36) 9.30 am Just had a vision of a box of printed glossy (A5?) flyers published on the Miracles Website! P P P (A)
